Gidrol X., Sabelli P.A., Fern Y.S., Kush A.K.;

"Annexin-like protein from Arabidopsis thaliana rescues delta on mutant of Escherichia coli from H2O2 stress.";

Proc. Natl. Acad. Sci. U.S.A. 93:11268-11273(1996).

-i- SIMILARITY: Belongs to the annexin family.

-i- SIMILARITY: Boongs to the annexin repeats.

Proust J., Houlne G., Schantz M.L., Schantz R.;

Proust J., Houlne G., Schantz M.L., Schantz R.;

Submitted (NOV-1998) to the EMBL/GenBank/DDBJ databases.

-!- SIMILARITY: Helongs to the annexin family.

-!- SIMILARITY: Contains 4 annexin repeats.

-!- DOMAIN: A pair of annexin repeats may form
-calcium and phospholipid (By similarity).
-!- SIMILARITY: Belongs to the annexin family.
-!- SIMILARITY: Contains 4 annexin repeats.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                SEQUENCE FROM N.A. Submitted (MAY-2000) to the EMBL/GenBank/DDBJ databases.
-i-SIMILARITY: Belongs to the annexin family.
-i-SIMILARITY: Contains 4 annexin repeats.

Submitted (JUL-1998) to the EMBL/GenBank/DDBJ
-!- SIMILARITY: Belongs to the annexin family.
-!- SIMILARITY: Contains 4 annexin repeats.
